

A Helping Hand

When your family needs it the most

The death of a family member is a traumatising experience in one's life. NFS Insure have established this Funeral Cover, underwritten by MS Life a member of Old Mutual Group, for you and your family to ensure a dignified burial in the unfortunate event of loss of a loved one.

The various Funeral Packages provide comprehensive cover for funeral costs in the event of death. It gives you and your family the assurance that your loved ones do not experience any financial strain in this unfortunate time. The packages we provide are not only for families, individuals and single parents, but also for farmers who wish to cover their farm workers.

CASH PAID OUT WITHIN 48 HOURS

The comprehensive Funeral Plan pays a valid claim directly to your family within 48 hours of MS Life receiving the required documentation. This takes away the worry of having to borrow money from the bank, or family and friends to pay for the funeral.

COVER FROM DAY 1

From the time your application is accepted, you, your spouse and up to four dependent children are covered for accidental death and after just six months all of you are covered for death by natural causes as well.

Extended family can also be covered for accidental death from day one, and a 12 months waiting period applies for death by natural causes to those above the age of 65.

FARM WORKER PROTECTOR PLAN.

This added benefit provides Funeral Cover for the farm owner plus additional workers. It gives the farm owner assurance that they can bury their employees and do not experience any financial strain in the unfortunate event of a loss. The plan has been specifically designed with the farm owner and farm worker in mind to provide peace of mind for them.

BEEF BENEFIT

The beef benefit is specially intended for the purchase of a cow up to a value of R5000.
